

Bipod Middle Frame Connector

BYO-MFF-2A

Quick Facts:

- Middle Frame Fitting is heavy duty cast aluminum and fits schedule-40 2" inner diameter pipe for both the top rail and the legs or 2-3/8" O.D. top rail and legs.
- 10' long legs (with none cemented/buried) would create a 9' high beam.
- Set screws are included.
- Middle frame connector is needed when more than one swing bay is desired on the same swing set.
- NOTE: There is a stop in the middle of this fitting. It is designed for joining two beam pipes, it will not allow a pipe to pass through.

Warranty:

- 1 year limited warranty
